

## Minutes of the June 2006 Fun Time Virginia Aero Nuts RC Club Meeting

The meeting was called to order at 7:04pm on June 1, 2006 by Dave Wright.

### Visitors:

- We had 2 visitors, Gene Hudgins and Dave Thomas.

### Communication:

Dave had the following communications to relay to the club.

- Joe Vest did a great job on the lawnmower – it's now back in service.
- Joe Nall, The world's largest fly-in – see <http://www.joenal.com/joenal2/2006regist.html> for details. This is a HIGHLY recommended trip.

### Reading of the April Minutes:

- Shelley read the May minutes. Charlie Fasano motioned to accept the minutes, as read. John Walker Seconded the motion and it was passed by those present.

### Treasurers Report:

- Rodney was not present and there was no current treasurer's report  
In Rodney's absence, Shelley read the Treasures report from the May meeting.
- Willie Wilcox made a motion to accept the treasurer's report and it was seconded by John Walker. The motion was passed by those present.

### Old Business:

- **4<sup>th</sup> of July Fly-In:** Dave Wright is working with the folks at Blackstone AAF to coordinate. He will be required to turn in a list of club members who will be attending. In addition, we will not be allowed to go down early this year. We will be allowed access beginning at 10:00AM Additional details to be announced.
- **Cub Scout Fly-In:** The boys had a great time!
- **Yellow Ribbons:** Please make sure you have a yellow ribbon attached to your radio antenna when you go out to the field. If you need some, Joe Vest has put a small roll of it in the transmitter impound area. Be thrifty, but take what you need.

### New Business:

- **PortaJohn** - The company that has the current port-a-john is going to pull it out because of their inability to service it. A motion was made to allow John Walker to search for and contract for a replacement. Motion was made by Bruce and seconded by Joe Vest. The motion was passed by those present.
- **The 4-Plane Rule** - There was discussion about the club's safety rule of only allowing 4 aircraft in the air at one time. John Walker made a motion to amend the safety rules to allow 5 aircraft in the air over the main runway plus 1 aircraft restricted to the area of the helipad. The motion was seconded by Larry Tadlock and passed by those present.

### Club Time:

- **Foam Wings & CA hinges** - Dave showed everyone a section of a balsa covered foam wing that the builder used CA hinges on. It was unbelievable how the CA had wicked into and destroyed the inner foam around the hinges. Bottom Line – DON'T USE CA HINGES ON A FOAM WING, (unless you use the foam-compatible type CA).

**Adjourn:**

With no further business on the table, John Walker made a motion to adjourn the meeting. The motion was seconded by Jim Baldwin, and passed by all present. The meeting was adjourned at 7:40PM.
