New Business

- Trainer planes- To make as long story short, it was brought up as to how long a student/member flies on the club trainer. It was stated that after someone flies for a short while to see if they want to get in the hobby that they should possibly buy their own trainer and their plane be used during the training. It was thought that some students have flown on the clubs trainer for an extended period of time.
- Helicopter flying- It was asked exactly what kind of flying was suppose to take place in the area off to the side for the helicopters. Some people feel very uncomfortable with helicopters doing regular flying routines in that area. Some thought that the area was suppose to be for hovering and maybe very small electric planes. The new board said that they would look into that issue and take care of it.
- The President of Full Circle had recently came out to the business for a site inspection. It was reported that he was very impressed with what we had done with the field and We got a thumbs up !
- **New Member Confirmation:** Jim Baldwin was presented to the club for membership. Charlie Fasano made a motion to accept Jim into the club and it was second by Rodney Tolley. All members present voted to accept Jim into the club. Welcome aboard Jim!
- **Club Time** – No one had anything for club time this month.
- There wasn't any further business so Dave Wright made a motion to adjourn and it was second by Larry Tadlock. We were dismissed at 7:45pm
